+Great game for ADD Kids  
+Learn Math while Playing  
+Fun little shooter  
+Multiplayer

-Controls aren't the greatest  
-A little expensive for little content  
-Little buggy

2.5/5

I would put informational/Neutral rating if I could. Would have loved to grow up learning math like this. Great Edutainment game that makes you think. Although Doesn't have anyone playing it - Multiplayer games need multiple people playing them. If it had more people playing this would be a definite buy.
